

Shellie Arnold Speaker Bio

Shellie Arnold tells others she's living proof God can redeem, heal, and restore anything. More than once she's experienced exactly that in her life and in her marriage. Consequently, she truly believes any marriage can be healed and thrive, if both parties listen to God.

A multi-published author, she has also written articles and Bible study/devotional curriculum. She has taught in Sunday school, continuing class, seminar, conference, and retreat settings. Her favorite moments are when she has the opportunity to share truth she learned the hard way and seeing that truth bless others.

Shellie's personal and transparent speaking style has been likened to "a velvet-covered brick....She slips in the truth then hits us over the head with it." Her dry sense of humor, self-deprecating stories, and overall awkwardness in the kitchen and when using technology, enable her to offer a refreshing take on Scripture and the believer's journey with Jesus.

A home school mom of twenty-two years, Shellie knows the unique challenges stay-at-home moms face. As a sexual abuse survivor, she understands the long-term effects trauma can have, even if one is a believer. She longs to encourage those with deep hurts that God is near and offers all they need to completely heal.
