

Shellie Arnold Author Bio

Shellie Arnold is a writer and speaker on marriage and family. She truly believes—despite baggage, neglect, or mistakes—if a husband and wife listen to God, any marriage can be healed and thrive. Her passion is sharing how God is helping her do exactly that.

She has three published novels: *The Spindle Chair*, *Sticks and Stones*, and *Abide With Me*, all of which depict the “perfect storms” in marriage—what happens when our weaknesses hit head-on, and we’re both left wondering if anything can be salvaged. She maintains a blog at www.shelliearnold.com and is the founder of YOUR MARRIAGE resources.

She has written articles, devotional curriculum, instructional curriculum, and contributed to three non-fiction books. Her current projects include devotionals for Christian wives, more novels, home school curriculum for high schoolers, and her first non-fiction book.

Shellie is a mother of three and home schooled for over twenty-two years, so she knows the unique challenges stay-at-home moms face. As a sexual abuse survivor, she understands the long-term effects trauma can have, even for believers. She lives in Ohio with her high school sweetheart and husband of thirty-four years, her daughter, three cats, and two rabbits. For the last two years, she has especially enjoyed spending time with her first grandchild.
